

Learning to work together, Working together to learn.

At The Anthony Roper School we will offer a stimulating curriculum designed to meet the needs of every child in a secure, caring and happy environment. We will nurture self-esteem and self-confidence whilst developing of individual talents.

We shall achieve this vision through the following aims:

Through the provision of a motivating, inspirational and creative curriculum and memorable enrichment experiences we aim to develop free thinking, confident, independent and lifelong learners who reach their full potential in all aspects of learning - **learning to learn**

By developing spiritual awareness and curiosity about the world in which we all live we aim to create a sense of moral responsibility and to respect the needs and differences of others, encouraging children to be responsible for their own actions.

We believe that a caring and supportive environment will nurture a community based on openness, honesty and trust - **learning to care**

Through creating a feeling of belonging and recognition of school pride we will strive for excellent behaviour and a shared vision for all. We believe that everybody has the right to feel safe and that they belong, whether it is to their class group, the school as a whole, the local community or the wider world - **learning to share**

Through working in partnership with parents and the community we will prepare pupils for the future and ensure that they are equipped to make appropriate and well considered life choices. We believe that every child is different and every child has something to offer - **learning to live**

Through the provision of support and challenge for all pupils we will encourage self esteem and will foster high aspirations. We aim to provide opportunities for pupils to express individual talents and gifts and value sporting and artistic achievements. Enthusiasm, self motivation and confidence will make any challenge a possibility - **learning to dream**
